Randfontein Peoples Party**

17 June 2021

Madam

Re: Submission of the free and fairness of the elections in the middle of the COVID19

Your respective office urgent attention is drawn to the subject matter stated above.

Randfontein Peoples Party (RPP) is a registered political party according to the electoral Act of the Republic of South Africa.

Introduction

Our campaign to encourage people to participate in the 2021 Local Government elections is based on 3 pillars.

1. Door to door campaign

The Covid19 virus does not have feet it is moved from one place to the other by people, People may also become infected by touching surfaces that have been contaminated by the virus when touching their eyes, nose or mouth without cleaning their hands.

Our door to door campaign is based on knocking on people's doors and touching the door knob to open which put many of our people at risk of contracting the virus.

South Africa slow pace of vaccination while the numbers of infected people is increasing also plays a role in making people fear our volunteers to enter their houses.

Becoming a candidate is only the beginning of the election process. Successful candidates must both persuade voters that they deserve their individual votes and garner the critical votes of electors in the upcoming elections. Persuading voters is the essence of a political campaign therefore we strongly feel

that a little time not exceeding 12 Months should be given to political parties to have a proper and safe way of campaigning other than the usual campaigning methods we rely upon.

This period will even give government enough time to speed up the roll-out of the vaccination process.

2. Rallies

Rallies are a life blood of any political campaigning because that is where a party will demonstrate its strength and support during an election. South Africa is currently under alert level 3 lockdown whose regulations makes it extremely difficult to have thousands of our members gathered at a single place.

3. Blitz

The distribution of flyers and information leaflets in crowded areas like taxi ranks, malls and other area is a difficult exercise to undergo under current restrictions.

Conclusion

Nothing exposes a lack of leadership like a crisis. Nothing has made this clearer than the current global crisis caused by the coronavirus. One place where the lack of leadership has been tragically apparent was the 'Life Esedimeni tragic events, lives of human-beings were lost and they will never be recovered and families were turned upside down and their lives will never be the same.

We therefore request the former Deputy Chief Justice to delay the local government by a period not exceeding twelve months. This is to avert another tragedy or national disaster like we see in India currently.

As we write to the commission according to CNN, India today reported a world record for daily cases for the fifth day in a row, with 352,991 new illnesses reported, along with 2,812 deaths, then the question that confront South Africa with its ailing healthcare infrastructure and system is can we afford to be in the same both with a country that has the capacity to produce its vaccine.

Son of the soil, we value and respect your contribution to the liberation of our people. We therefore request that you keep that legacy intact, however it must be noted that Randfontein People's Party is more than ready to go to the elections any time the commission deems fit.

Your careful consideration of our submissions shall be held in high - esteem

Yours in developments

Ally Mosina
(Party Leader)
